TITLE Curriculum Guide for Teachers of Educable Mentally Retarded -- Primary.  
INSTITUTION Palm Beach County Board of Public Instruction, West Palm Beach, Fla.  
PUB DATE 69  
NOTE 104p.  
EDRS PRICE EDRS Price MF-\$0.50 HC-\$5.30  
DESCRIPTORS Behavioral Objectives, \*Curriculum Guides, \*Educable Mentally Handicapped, \*Exceptional Child Education, Instructional Materials, Lesson Plans, \*Mentally Handicapped, Primary Grades, Teaching Methods

ABSTRACT

Designed for use with primary level educable mentally handicapped children, the guide lists general objectives, gives a unit and a daily lesson plan on wise buying from the grocery or stationery store, and explains how to make experience charts. Over three-fourths of the guide consists of behavioral objectives with general objectives and terminal behavior specified and the following listed: communicative and functional skills, subject area, suggested methodology, and materials. ## **ACKNOWLEDGEMENTS**

This curriculum outline was developed in an eight week summer workshop in 1969. The members of the committee who formulated the guide were:

- Mrs. Marjorie Crick, Director, Exceptional Child Education  
Mr. Paul Matwy, Assistant Director, Exceptional Child Education
- Mrs. Evelyn Anderson, Reading Teacher  
Royal Palm School
- Mr. Carl Crawford, Principal  
Lantana Elementary School
- Mr. Jon Davidson, Occupation Education Teacher  
Jupiter High School
- Mrs. Charlie Ellington, Exceptional Child Education Teacher  
Westward Elementary School
- Mrs. Amy Holiday, Exceptional Child Education Teacher  
Spady Elementary School
- Mrs. Ruby Larkin, Intermediate Teacher  
Westward Elementary School
- Miss Barbara Madison, Occupational Education Teacher  
Pahokee Junior-Senior High School
- Mr. Jerome Steinberger, Exceptional Child Education Teacher  
Royal Palm School
- Mrs. Margo Zamvit, Speech Improvement Teacher  
North Shore Junior-Senior High School
- Miss Shirley Hall, Typist

Appreciation to the guidance given us in further understanding of Behavioral Objectives by Harold M. Harms, Ed. D. and William F. Hullihan, Ed. D.

## PREFACE

The increase in numbers of children being identified and classified as Educable Mentally Retarded has established the need for a program for these children which will provide a long range developmental sequence of skills and knowledge that will prepare them for the real world. We are faced with the obligation of developing a program that will successfully carry them from the first through the twelfth grades and into their vocational and social life. We need to prepare these children in four areas of adequacy; Personal, Social, Academic, and Vocational.

It was our aim to establish a curriculum development set-up in a fashion which would allow for change as time and experience warrant. Teachers in the field are often the best sources of methodology and materials. We hope you will contribute your ideas to this work.

Your involvement in the development of this curriculum is highly sought. We have established the form which is to be followed, that is, stating the objectives in behavioral terms. This in itself has proven to be an invaluable lesson for us. Behavioral objectives strive to present in a simple, clear, and readily understandable terms the specific objective the student should be able to reach somewhere in his learning continuum. Since behavioral objectives lend themselves quite easily to the academic areas of learning, this presented no problem. The social skills, however, are often difficult to present so as to meet the criteria for behavioral objectives. In some instances, we have placed social skills in terminal behavior. Terminal behavior is defined as that behavior which is a logical outgrowth and culmination of previous objectives.

You will find that much of our methodology is relevant to the objective, but you will also find that you have some ideas which better serve the objective. Our methods are suggested; you are sought by us to increase the functioning of all teachers. More and more, we are realizing the validity of the statement that all children are individuals. Methodology needs to change with the individual child, class, and teacher. The more methods we have, the better we can implement these objectives.

Materials are also presented, but again in a relatively brief outlined manner. You again are the individuals who produce and recognize usable materials. Please share these with others. It is part of your responsibility toward all children to share ideas and materials with others in the field.

We have established the ground work for this guide. We have set up a continuum for development. We have established behavioral objectives as our method of presentation. This has been no small task. We now need your cooperation and knowledge. The students who are seeking guidance and help from all of us are in need of your help.

THE 1969 WRITING COMMITTEE

## PHILOSOPHY OF EDUCATION

### WE BELIEVE

THAT the guardianship of public education is a trust and an obligation. That the goals of education are fundamentally the goals of a democracy and an introduction into the workings of a republic. In a deeper sense by affording full recognition to our republic we are acknowledging the duty, discipline, and responsibility demanded of all citizens.

THAT members of the Board of Public Instruction are elected representatives of the people to whom the schools belong.

THAT the Board of Public Instruction is a policy-making body responsible for financing quality education, evaluating the total school program, and communicating with their sovereign peers--namely, the people.

THAT the Superintendent and his staff are the executive officers of this school system and their responsibility is to make recommendations to the Board of Public Instruction and carry out Board policy.

THAT we are living in an ever-changing world and that education must be subject to change to meet the challenges of today and tomorrow.

THAT the quality of education in our school system is directly related to the quality of our teachers and to the financial support of the people.

THAT teaching is a profession and that our teachers, accordingly, should be dealt with as professionals and the proper environment shojld be provided in our system so that the talents of our teachers may be fully realized.

THAT noninstructional personnel are a vital part of our total school program and that their services should be rewarded commensurate with their abilities.

THAT an active and purposeful school program must be directed toward the common needs of all youth regardless of race, religion, or socioeconomic status and that we recognize and must consider the unique differences and needs of each individual.

THAT pupils are the most important resource in our school system and that we have a definite responsibility to make available to them opportunities to develop the skills, habits, attitudes and character traits essential to rich personal living which will enable a sound choice of and effective participation in a vocation, a concept of human relationships based on mutual recognition of common interests and produce responsible, contributing citizens.

THAT education is a local function, a state responsibility, and a national concern.

## PURPOSE

In Palm Beach County it is the purpose of the Board of Public Instruction to understand and provide for the needs of every child. In order to provide continuous teaching of the basic skills and tools of learning, we will make available a wide range of learning experiences.

By so doing, we will stimulate the intellectual curiosity, promote the intellectual inquiry, and develop rational powers and analytical thinking to effect continuous learning on the part of every boy and girl throughout his lifetime.

We will provide for children according to their varying needs, interests, abilities and levels of learning capacities.

By cooperating with the home, church, and other community agencies, we will do our best to develop each child to his ultimate physical, social, moral, spiritual and mental potential.

We herein dedicate our efforts to develop citizens who are effective in a democratic society as embodied under our republican form of government and in our American way of life.

## **INTRODUCTION**

The primary class for the Educable Mentally Retarded is composed of pupils with chronological ages from seven to ten and with mental ages ranging from about three and a half to six.

This grouping draws together those pupils who are ready for a social and academic program. The program aims at furthering their social, psychological, and physical readiness for the next stage of development.

The pupils learn by means of games and activities of short duration, which can be structured for the purpose of developing (1) confidence through successful accomplishment (2) habits of physical health and safety (3) language and speech skills (4) beginnings in quantitative concepts (5) visual and auditory abilities (6) competence in gross-motor skills (7) thinking abilities (8) awareness of directionality and (9) general work habits and attitudes which will permit them to benefit from group participation.

Educational authorities in mental retardation agree that the broad goal for the educable retarded is to develop independent living skills. Thus, the behavioral objectives in this section may be grouped under four headings: family, social, and civic skills; good work habits and skills; essential academic skills; and personal adjustment.

Varied methods, activities, and experiences are provided which are geared to the level, capacity, limitations, and characteristics of each individual child.

## **PRIMARY LEVEL**

### **GENERAL ~~LEISURE~~ OBJECTIVES**

A pupil who has completed the Primary Level should exhibit the following:

1. The pupil will show competence in identifying with his new environment and adjusting to new situations.
2. The pupil should be aware of the necessity for personal and physical fitness.
3. The pupil should be aware of the necessity for the maintenance of his immediate environment.
4. The pupil should demonstrate an awareness of self-discipline and self-direction.
5. The pupil should develop an awareness of social skills.
6. The pupil will demonstrate his ability to make auditory and visual discriminations.
7. The pupil should demonstrate his ability to listen and to follow directions.
8. The pupil will establish competence in gross-motor skills.
9. The pupil will demonstrate his awareness of directionality.
10. The pupil will establish competence in fine-motor skills.
11. The pupil should develop an awareness of the value of a task well done.
12. The pupil should begin to transfer from concrete to abstract conceptual skills.
13. The pupil will demonstrate his ability to recognize and interpret simple safety precautions and signs.
14. The pupil should show an awareness of each family member.
15. The pupil should show an awareness of the occupations necessary to his environment.
16. The pupil should begin to develop an awareness of leisure time activities.

## PRIMARY LEVEL

### UNIT: WISE BUYING FROM THE GROCERY OR STATIONERY STORE

- I. DEVELOPMENT: During the course of the year, boys and girls buy a great many different articles. Most of these are small, but they cost money. Very few people, even grown-ups, have enough money to buy everything they want. They have to choose first those things which are most important. Then, if there is enough money left, they can buy some of the other articles they want. Therefore, this unit can be developed as the first step in exploring the things which most boys and girls of this age buy and to help them decide which are most important and should be bought first.

### II. OBJECTIVES

#### A. General

1. The pupil will demonstrate his ability to make auditory and visual discriminations.
2. The pupil should demonstrate an awareness of self-control and self-direction.
3. The pupil should exhibit an awareness of social skills.
4. The pupil should begin to transfer from concrete to abstract conceptual skills.

#### B. Behavioral

1. Upon being presented with an appropriate association, the pupil will be able to identify spoken sounds or visual symbols connected with that association.
2. If presented slowly and clearly, the pupil will be able to recognize, name, and reproduce in either manuscript or cursive writing, words that go with objects he has learned to call by name.
3. Given the privilege of doing so, the pupil should be able to select three articles which are of the greatest need to him and which should be purchased first.
4. Given the opportunity to participate in a role-playing situation, the pupil will demonstrate courtesy by using "Thank You," "Please," and "I'm sorry."
5. Given the concept of "more or less" by associating them with specific objects, the pupil will be able to identify these terms in making his purchases at the store.
6. Given the diagram "a given number plus a given number equals" and the symbols (+ and =), the pupil will be able to identify the correct word with the correct symbol when making his purchases.
7. Given sets of one, two, three, four, and five members, the pupil will arrange the members of each to demonstrate the addition combinations through ten.
8. Given a problem dealing with personal usage (going to the grocery or stationery store), the pupil will identify simple coinage.

9. Given the problem of going to the grocery or stationery store, the pupil will be able to distinguish time elements.
10. Given the above problem, the pupil will be able to locate calendar data in connection with the event.
11. Given the above problem, the pupil will be able to estimate simple measurements.

### III. METHODS OF APPROACH

- A. Through a discussion of what articles boys and girls buy sometime during a school year.
- B. Through a discussion of pictures of articles (or drawings) placed on the bulletin board.
- C. Through a trip to a grocery or stationery store for a simple object required in school.

### IV. SUGGESTED TYPES OF ACTIVITIES

#### A. Personal

1. A trip to a grocery or stationery store in the vicinity of the school.
2. Interview with the store clerk.
  - a. To find out the sources of articles purchased.
  - b. To find out the duties of a store clerk.
  - c. To find out the care of a grocery or stationery store.

#### B. Construction

1. Make a grocery or a stationery store in the classroom.
2. Make a "Dictionary of Articles" that may be purchased in the store.
3. Make picture charts of the origin of some of these articles.
4. Make lists of the most important articles needed.

#### C. Creative Experiences

1. Art
  - a. Making signs for prices of articles in the store.
  - b. Making posters advertising the store.
  - c. Lettering the name of the store.
  - d. Drawing pictures of articles, if magazine pictures cannot be found.
2. Music
  - a. Making up jingles that can be sung about the store.
3. Language Arts
  - a. Making up experience stories about the store.

- b. Making up experience stories about personal trips to grocery or stationery stores.
  - 4. Dramatization
    - a. Making up a puppet play about the store.
    - b. Role-playing of purchasing objects at the store with pupils taking turns at being the store owner (or clerk) or buyer. This should be taped and replayed for exercises in language expressions.

## V. SUGGESTED TYPES OF EXPERIENCES

### A. Art Experiences

- 1. Scrapbooks of articles that pupils would like to purchase.
- 2. Mural of a grocery or stationery store.
- 3. Easel and finger painting of
  - a. Work of the store clerk.
  - b. Scenes in the store.
  - c. Trip to the store.
- 4. Clay modeling of objects used in the Play store.
- 5. Freehand illustrations to advertise articles that can be purchased.
- 6. Application of design
  - a. Arrangement of goods.
  - b. Advertising posters.

### B. Music Experiences

- 1. Setting the jingles about the store to music.
- 2. Getting up a rhythm band to play the music.

### C. Language Arts

- 1. Letters requesting materials, asking to visit the neighborhood store, and thank-you letters.
- 2. Making up lists of articles that pupils would like to buy.
- 3. Deciding which of these articles are needed most and should be purchased first.
- 4. Writing and composing stories about the store and the visit to the store.
- 5. Word lists for spelling.
- 6. Discussions of pictures, plans, stories and poems, personal experiences, and trips to the store.
- 7. Language
  - a. Polite telephone conversation with the store clerk.
  - b. Role-playing of being either the clerk or a customer at the store.
  - c. Telling experience stories about visits to a store.

**D. Reading**

1. Chart reading - trip plans, courtesy and safety rules, planning charts, committee charts, experience charts, business rules chart.
2. Labeling
  - a. Numbers
  - b. Articles
3. Reading about stores from books.

**E. Arithmetic Experiences**

1. Establishing concepts of "more or less."
2. Money concepts: penny nickel, dime, quarter.
3. Comparisons of big and small.
4. Calendar concepts - locating calendar data in connection with date of visit to the store.
5. Time concepts - opening and closing of the store, length of time the trip took.
6. Measuring concepts - pound, dozen, half-dozen.
7. Arithmetic processes
  - a. Adding up the prices of articles purchased.
  - b. Deciding how much change one would receive from the amount given the clerk for each purchase.

**F. Health and Safety Experiences**

1. Personal cleanliness.
2. Cleanliness of surroundings.
3. Cleanliness in handling.
4. Safety in the store.
  - a. Materials out of harm's way.
  - b. Fire prevention.
5. Care and economy of material.
6. Safety rules observed on the trip.

**G. Science Experiences**

1. Dependent on the type of purchases (such as, magnet or compass).

**VI. PROBABLE OUTCOMES**

**A. Social Growth**

1. Customers must be courteous if they expect courtesy.
2. Ability to cooperate.
3. Value judgments.
4. Self-confidence and social maturity.

**B. Language Development**

1. Freedom of expression
2. An interest in conversational knowledge
3. Freedom of expression

**C. Conceptual Skills**

1. Ability to attack problems independently.
2. Improved arithmetic concepts.
3. Improved use of arithmetic processes.
4. Practice and drill in fundamentals.

**D. Music and Art Skills**

1. Improved creative skills and appreciation.

**VII. EVALUATION**

The pass-fail of the behavioral objectives.

**PRIMARY LEVEL**

**SUGGESTED TYPICAL DAILY LESSON PLAN**

(Prepared for the first day of working on Unit "Wise Buying From the Grocery or Stationery Store.")

**LESSON I.**

**I. DEVELOPMENT OR MOTIVATING ACTIVITY**

- A. Introduce the fact that during the course of a year, boys and girls buy a great many different articles. Most of these are small, but they cost money. Very few people, even grown ups, have enough money to buy everything they want. They have to choose first those things which are most important. Then, if there is enough money left, they can buy some of the other articles they want.
- B. Pre-test. Give an informal on-the-spot diagnosis by having the pupils write the list of articles which they have composed and which you have placed on the chalkboard. Have them check on the line in front of each item the ones they have spent money on. This pre-test should check the following areas:
  1. Ability to express themselves orally.
  2. Ability to listen and follow directions.
  3. Writing ability.

**II. OBJECTIVES**

Use all of the general objectives as outlined in the unit and the behavioral objectives as indicated on the left side of this plan where they will best fit in.

**III. PLAN AS DEVELOPED FOR SUBJECT AREAS AS SCHEDULED DURING THE DAY.**

**9:00 - 10:00 Language Arts** (Use experience chart method)\*

- A. Discuss and write on chalkboard:
  1. What articles most boys and girls buy sometime during a year.  
Example: \_\_\_\_\_ books \_\_\_\_\_ gun \_\_\_\_\_ candy \_\_\_\_\_ notebook \_\_\_\_\_ shows \_\_\_\_\_ lunches  
Behavioral Objectives  
1, 2 and 3
  2. Check with an "N" the items the pupils really need.
  3. Have each pupil tell for each item they name, what would happen if they did not have it.

\*Experience chart making explained in detail elsewhere in this guide.

4. Check with a "?" the articles listed on the board that are not necessary but are nice to have.
5. Have pupils tell what would happen if they did not get those articles.
6. Ask, "What often happens if you spend your money first for things you would like to have but do not need?"

#### 10:00 - 10:30 Music or Rhythms

1. Have pupils make up jingles about some of the articles decided upon as wise buying and write these on the chalkboard.  
Example: "One for a nickel, two for a dime,  
Is wise buying of pencils, most of the time."

#### 10:45 - 11:15 Arithmetic Concepts

- Behavioral Objective 5.
1. Establish the concept of "more or less" by:
    - a. Giving a pupil a pencil or some similar object and ask him if he wants more. If he says "yes," give him two more. Then ask him to give one pencil to another pupil, and ask that pupil if he has more or less pencils than the pupil who gave it to him.
    - b. Retrieve the pencils, add a few more and arrange them in several groups and ask various pupils which group has more pencils and which group has less pencils.
    - c. Arrange pennies or play money in groups 1-3, 3-6, 3-7, 3-4. Ask pupils alternately which is more, which is less.
    - d. Show pictures or drawings of coins and ask pupils to mark which is more and which is less.
    - e. Extend this process to varied sets, beginning with one penny and one button compared with two pencils and one button. Gradually increase complexity until ten or more objects in a set are varied.

#### 1:00 - 1:30 Language Arts (language development)

- Behavioral Objectives 1 and 2
1. Make plans for visiting a neighborhood grocery or stationery store.
  2. Have pupils plan a letter to write to the owner or manager of a neighborhood store.
  3. Have pupils make up a word list for spelling words for the week.

#### 1:30 - 2:00 Health

1. Discuss personal appearance when going to a store to purchase articles.

**2:00 - 2:30      Safety**

1. Discuss safety rules to be observed on the trip to the store. Have pupils list some rules that keep pedestrians safe, such as:
  - a. Stop, and look carefully before crossing the street.
  - b. Cross the street only at intersections.
  - c. Cross the street at corners where there is a traffic light, a police officer, or a school traffic patrol, if possible.
  - d. Cross when the traffic light is green, or when the officer or patrol tells you to.
  - e. Wait for a gap in traffic when crossing at corners that are not controlled.
  - f. Walk between marked lines.

If there should be time for an art lesson, a scrapbook might be planned in which pictures of the objects they would like to purchase are either drawn or cut from magazines, a Sears Roebuck catalog, or stamp book catalog. A bulletin board of above objects and drawings might be planned.

**IV. EVALUATION**

Pupil-teacher evaluation of how much had been achieved during the day.

- a. How many pupils passed the behavioral objectives?
- b. How many pupils are able to express orally what they have done during the day?
- c. How many pupils listened well and followed directions correctly?

This could be the criteria for giving check points for the day if individual charts are being kept on pupils' daily progress.

## HOW TO PLAN AN EXPERIENCE CHART

### I. Charts Should Be Attractive.

Experience reading materials are more pleasing and interesting if decorated with brightly colored pictures which have been collected from magazines by the children or teacher, or with pictures which have been painted or crayoned by the children themselves.

Another consideration is the attractiveness of the lettering. The letters should be large, black and clear. The printing should be placed as nearly as possible in the middle of the chart, leaving a pleasing margin on each side and sufficient space at top and bottom to permit artistic arrangement of the decoration.

### II. Charts Should Have a Measure of Literary Quality.

- A. Listen for original bits of expression from the children and incorporate such expressions into the body of the story.
- B. Monotony may be avoided by weaving in an occasional exclamatory sentence or a question.
- C. Make use of sound, color, movement, and rhythm.

### III. Charts Should Make Use of Perceptual Clues.

- A. Configuration - Children often recognize a word by its general shape, such as airplane.
- B. Avoid troublesome words which differ only in one letter such as them - then, these - those.
- C. Experience stories should be liberally sprinkled with longer words having distinctly characteristic forms, vivid interest clues, and concrete meaningful backgrounds.
- D. The pronouns, prepositions, and adverbs which resemble each other closely in contour should be carefully distributed so they do not occur too frequently or too closely together.

### IV. Charts Should Give Consideration to Phrasing.

In order to build good eye-movement habits, we must take care to group words into meaningful phrases, to put together those words which belong together.

Example:

THIS We went to the store  
NOT We went to the  
                  THIS store by  
                  walking in a  
                  group.

## V. Charts Should Provide for Repetition

Repetition is necessary in fixing words occurring in children's early reading vocabulary. Therefore, guide the children's sentences in such a way that the same words recur several times in a chart, and so that many of them will recur in succeeding charts. Stories arising from the recounting of experiences or making plans are naturally repetitious in character because they simply enumerate a list of things that the children saw, did, or made, or things they are going to see, do, or make.

### PREPARING THE CHART

The first draft of the chart may be manuscripted on the chalkboard. If the teacher is so expert in manuscript writing that she can do it very rapidly and well, the first draft may be made directly on lined chart paper as the children compose it.

#### I. Materials

If the chart is to be used for practice, duplicate copies should be made - one to be cut up and used for practice purposes.

The following materials are needed:

1. A broad-edge pen and India Ink or a magic marker.
2. A supply of lined chart paper.
3. A wall pocket container in which children may place sentences, phrases and words in connection with their practice work in reading charts.

#### II. Procedure

1. Put the title about three inches from the top of the chart and equidistant from right and left sides of chart.
2. Begin the first sentence about three inches below the title.
3. Leave a left hand margin of one to two inches throughout the body of the chart.
4. Leave a space of about three fourths of an inch between words.
5. Leave a space of about two inches between lines.
6. Use capitals only where they would be used in ordinary writing.
7. Make lines as nearly uniform in length as possible.
8. When it is necessary to divide sentences always break them between phrases.

**1. GENERAL OBJECTIVE:** THE PUPIL WILL SHOW COMPETENCE IN IDENTIFYING WITH HIS NEW ENVIRONMENT AND ADJUSTING TO NEW SITUATIONS.

**BEHAVIORAL OBJECTIVE:**

Given a list of four words: two words depicting time and two words depicting space, the pupil will interpret the meaning of at least three words by using them correctly in sentences.

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
<p>1. Gross-motor skills 2. Conceptual skills</p>	<p>READING READINESS</p> <p>1. Conceptual skills 2. Social skills</p>	<p>1. Learning concepts of time, such as: before, after, morning, afternoon, month, day, week, minute, etc. 2. Learning simple concepts of space such as: over, under, tall, short, long, etc. 3. Learning simple concepts of quantity such as: bigger, smaller, heavier 4. Counting, recognizing numbers. 5. Knowing time to the hour.</p> <p>Traffic and Safety Signs Design Blocks Toy money Cubical counting blocks Ten-Tens counting frame Flannel Board cut-outs Tick-Tock primary clock Fraction blocks (made of plywood)</p>	<p>TIME AND SPACE</p> <p>PRIMARY</p>

**1. GENERAL OBJECTIVE:** THE PUPIL WILL SHOW COMPETENCE IN IDENTIFYING WITH HIS NEW ENVIRONMENT AND ADJUSTING TO NEW SITUATIONS.

**BEHAVIORAL OBJECTIVE:** Given a collection of six nickels and two dimes, the pupil selects nickels in sufficient quantity to equal the value of the two dimes.

**TERMINAL BEHAVIOR:**

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
1. Perceptual-motor skills	READING READINESS	Give specific directions and assistance in the following activities pertaining to conceptual involvement:	Flannel board aids: Story kit  The family Farm animals  Pictures that rhyme
2. Auditory and visual acuity	Visual-motor skills	Learning simple concept of money and making change.	Fine-muscle coordination  Learning the concept of large and small.

Motor Aptitude and Intellectual Performance, A.H. and Gruber Ismail.  
(may be obtained from the County Curriculum Library, Exceptional Child Library.)

1. GENERAL OBJECTIVE: THE PUPIL WILL BEING COMPETENCE IN IDENTIFYING WITH HIS NEW ENVIRONMENT AND ADJUSTING TO IT IN SITUATIONS.

1. BEHAVIORAL OBJECTIVE: Given an outline drawing of the flag of the U.S.A. and a box of crayons containing six colors, the pupil will color his flag correctly by comparing the colors of his crayons with the colors in the flag on the wall.

GENERAL OBJECTIVE: THE PUPIL SHOULD BE AWARE OF THE NECESSITY FOR PERSONAL AND PHYSICAL FITNESS.

GENERAL OBJECTIVE: THE PUPIL SHOULD BE AWARE OF THE NECESSITY FOR PERSONAL AND PHYSICAL FITNESS.

BEHAVIORAL OBJECTIVE: Having discussed and listed basic food group in a variety of ways, the pupil will be able to perform the following objectives: (1) Given pictures of foods, the pupil will be able to classify the foods into the basic food groups of milk products, meat and eggs, fruit and vegetables, cereals and breads. (2) Given a duplicated set of pictures of prepared foods the pupil will identify those that are commonly eaten for breakfast. (3) Given assorted pictures of foods, one picture on each card, the pupil will identify foods which constitute a good lunch and a good dinner.

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
<p>Language Development Vocabulary building</p> <p>1. Fluency and encoding</p> <p>2. Articulation</p>	<p>LANGUAGE ARTS</p> <p>1. Oral language</p> <p>2. Reading</p> <p>ART</p>	<p>Following the discussion of basic food groups and the preparation of separate picture charts the following activities are suggested:</p> <ol style="list-style-type: none"> <li>1. Have children discuss the importance of eating breakfast every morning.</li> <li>2. Have pupils name their favorite foods and list them under breakfast, lunch, dinner and snacks.</li> <li>3. Have pupils tell the foods they would choose if they ate in a restaurant.</li> <li>4. Discuss the importance of cleanliness in handling food.</li> <li>5. Have pupils make scrapbooks of their own of their favorite meals using pictures cut from magazines.</li> <li>6. Make fruits and vegetables from paper mache or self-hardening clay and paint with poster paint, then shellac for preservation.</li> <li>7. Make wall plaques out of plaster of Paris, using the raised portions of fruits or vegetables that have been modeled from plasticene clay. These plaques can be painted with poster paint and shellacked. A paper clip can be opened in two and placed in the back of the plaster of Paris plaque before it hardens to serve as a hanger.</li> </ol>	<p>A Daily Food Guide Chart (all levels), Scotts, Foreman &amp; Co., Atlanta, Georgia</p> <p>Experience with Foods Chart, Grades 1-6, Ginn &amp; Co., Atlanta, Georgia</p> <p>Magazine pictures of the basic food groups.</p> <p>Films and filmstrips listed in the Teacher's Guide and the Palm Beach County Audio-Visual Service Catalog.</p>

3. GENERAL OBJECTIVE: THE PUPIL SHOULD BE AWARE OF THE NECESSITY FOR THE MAINTENANCE OF HIS IMMEDIATE ENVIRONMENT.

BEHAVIORAL OBJECTIVE: Given the reasons why habits of cleanliness and orderliness are necessary for personal health and safety, as well as for social approval, and encouraged to practice daily cleanliness, the pupil will establish and maintain such habits.

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
<p>Social Skills 1. Self-acceptance of habits of personal cleanliness</p> <p>2. Anticipatory response, that of being able to predict the consequences of an unclean or untidy appearance</p> <p>3. Value judgments; having a sense of what is right and what is wrong about his personal appearance</p> <p>4. Social maturity; the ability to assume the responsibility for personal cleanliness</p>	<p>HEALTH ALL OTHER SUBJECT AREAS</p>	<p>Begin the day as soon as the children arrive with an inspection for cleanliness. Examine the hands, nails, neck, ears, face, teeth and hair.</p> <p>If any of their garments are torn or soiled, or buttons are lacking, call the child's attention to this quietly, in a low voice so as not to be heard by the other children.</p> <p>In this way, the children will become accustomed to observing themselves and take an interest in their own appearance.</p> <p>Teacher's Ingenuity</p> <p>"Health and Safety", I.T.V., Palm Beach County</p>	<p>The Montessori Method, by Maria Montessori, 372.21M*</p> <p>Teaching/Discipline, by Charles Madsen, 371.9M*</p> <p>San Francisco Course of Study and Curriculum Guide, Ungraded classes, "Health and Safety" section, pages 135-142*</p> <p>*Exceptional Child Curriculum Library</p>

**3. GENERAL OBJECTIVE:** THE PUPIL SHOULD BE AWARE OF THE NECESSITY FOR THE MAINTENANCE OF HIS IMMEDIATE ENVIRONMENT.

**BEHAVIORAL OBJECTIVE:** Given the fact that, "When one does nice things, nice things will happen to one," and giving the pupil the experience of its actually happening to him, the pupil will do nice things in order to have nice things happen to him.

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
<p><b>Social Skills</b></p> <ol style="list-style-type: none"> <li>1. Social acceptance of being able to relate to others and being accepted in both one-to-one and group situations</li> <li>2. PRIMARY

**12. GENERAL OBJECTIVE:** THE PUPIL SHOULD BEGIN TO TRANSFER FROM CONCRETE TO ABSTRACT CONCEPTUAL SKILLS.

**BEHAVIORAL OBJECTIVE:** Given a number of objects or a picture, the pupil will be able to identify collections of objects as sets, either by grouping the objects or by orally  naming the collection.

**TERMINAL BEHAVIOR:**

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
<b>Conceptual skills</b> 1. Number concepts 2. Set concepts	<b>MATHEMATICS</b> Number readiness  <b>LANGUAGE ARTS</b> 1. Oral language  <b>Language development</b> 1. Vocabulary 2. Articulation	<ol style="list-style-type: none"> <li>Give seatwork with matching problems. For example, require pupil to match pictures of six horses with the correct number among three possible choices, such as 3 - 5 - 6. Vary pictures to include mixed groups and extend matching exercises.</li> <li>Word association and advanced grouping.               <ol style="list-style-type: none"> <li>Have pupil associate numbers of objects and the word symbols for the given number sets. Begin with homogeneous sets and proceed to sets including number words themselves.</li> <li>Introduce groupings by 2's, 5's and then 10's, proceeding from same to varied material objects. Extend to pictures of varied groups. Have pupils do seat work, circling picture groups of 2's, 5's, and 10's. Using material objects in the room, have pupil make varied groupings.</li> <li>Extend numbers to 20, using coin counting and groupings. Gradually extend to 100, first using rote counting and simple grouping. Have pupil group coins by fives, tens and teach sequential counting.</li> </ol> </li> <li>Insure daily practice in counting pupils, lunches, pencils, papers, etc. extending counting to basic addition exercises.</li> </ol>	Refer to materials listed previously.

**12. GENERAL OBJECTIVE:** THE PUPIL SHOULD BEGIN TO TRANSFER FROM CONCRETE TO ABSTRACT CONCEPTUAL SKILLS.

**BEHAVIORAL OBJECTIVE:** Using a flannel board and felt cut-outs and shown an addition or subtraction equation, the pupil will manipulate the cut-outs to demonstrate the mathematical process shown by the equation.

**TERMINAL BEHAVIOR:**

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
Conceptual skills 1. Arithmetic processes (addition and subtraction)	MATHEMATICS Beginning processes of addition and subtraction.	<ol style="list-style-type: none"> <li>Instruct pupil in simple addition formulas. Have him make his own, using flannel board or abacus, clothespins, buttons and pegboard aids.</li> <li>Ensure that pupil knows the concept of "take away, -, minus, subtract." Using flannel board or pennies, develop subtracting problems from one to ten cents.</li> <li>Introduce oral and written problems to 19 and work with change to twenty-five cents.</li> <li>Play store with toy money to extend basic concepts to one dollar.</li> <li>Teacher ingenuity.</li> </ol>	<u>Number Concepts, Level 3</u> <u>U.S. Money, Level 2 and 3,</u> <u>The Continental Press, Inc.,</u> <u>367 S. Pasadena Ave., Pasadena, California 91105.</u>  <u>Games and Charts:</u> <u>Ideal Company: "Make-A-Ten"</u> <u>Grades 2 to 6;</u> <u>Milton Bradley: "Ten-Tens Counting Frame"</u> <u>"Plastic Counters"</u> <u>"Number Concept Cards"</u> <u>"Link Numbers"</u> <u>"Educational Toy Money"</u> <u>Instructo: Magnetic visual aids</u>  All above may be obtained from Drago School and Equipment Supplies

**12. GENERAL OBJECTIVE:** THE PUPIL SHOULD BEGIN TO TRANSFER FROM CONCRETE TO ABSTRACT CONCEPTUAL SKILLS.

**BEHAVIORAL OBJECTIVE:** Given sets of one, two, three, four and five members, the pupil will arrange the members of each to demonstrate the addition and subtraction combinations through 10.

**TERMINAL BEHAVIOR:**

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
Conceptual skills Arithmetic processes	MATHEMATICS Advanced processes of addition and subtraction	<ol style="list-style-type: none"><li>Gradually extend program to include one-place columns under sum ten. Introduce two-place numbers to include simple carrying. Use Quizmo, toy games and like problem situations.</li><li>Have pupils create and solve their own two-place non-borrowing problems. Gradually extend to borrowing, using abacus and number boards. Use flash cards and games for drill.</li></ol>	<p>More games and charts: Ideal Company: "New Math Relationship Cards" (addition and subtraction)</p> <p>Milton Bradley: "Modern Mental Computation" "Quizmo" "Individual Number Lines" "New Math Flash Cards" Dolch "The 10 Game" Kenworthy, Workbooks</p> <p>All above from Drago School Supply, Fort Lauderdale or Miami, Florida</p>

**12. GENERAL OBJECTIVE:** THE PUPIL SHOULD BEGIN TO TRANSFER FROM CONCRETE TO ABSTRACT CONCEPTUAL SKILLS.

**BEHAVIORAL OBJECTIVE:** Given problems dealing with personal usage and reviewing the application of the basic arithmetic processes, the pupil will be able to identify simple coinage, distinguish time elements, locate calendar date and estimate simple measurements.

COMMUNICATIVE AND FUNCTIONAL SKILLS	SUBJECT AREA	SUGGESTED METHODOLOGY	MATERIALS
<p>Conceptual skills Arithmetic reasoning</p> <p>Language development</p> <ol style="list-style-type: none"> <li>Vocabulary building</li> <li>Fluency and encoding</li> <li>Articulation</li> </ol>	<p>MATHEMATICS</p> <p>LANGUAGE ARTS</p> <ol style="list-style-type: none"> <li>Oral language</li> <li>Reading</li> <li>Writing</li> </ol>	<ol style="list-style-type: none"> <li>Money usage. Review basic coinage. Using toy store or play situations, have pupils develop reasoning problems around simple purchases. Show newspaper food store advertisements. Have pupils list and total purchases, then subtract from given dollar denomination. Extend problems to purchasing of gifts, Christmas lists, clothes, etc.</li> <li>Time concepts. Review meaning of "o'clock," "hour," "half-hour." Extend program to "quarter-hour," "a.m." and "p.m." concepts. Gradually teach precise time counting, including minutes and seconds.</li> <li>Calendar awareness. Locate day of the week and date and month. Locate holidays and other special days. Extend to outstanding dates in history.</li> <li>Weights and measures. Present basic concepts of inch, foot, yard, mile. Develop practical problems requiring actual measurements (size of room, book, table, etc.). Develop concepts of teaspoon, tablespoon, cup, ounces, pounds, pint, quart, dozen, etc. If possible, involve pupils in simple recipes for cooking, comparison of weight of products.</li> </ol>	<p>Measurement, Level 3 and Learning New Skills in Arithmetic, The Continental Press, Inc., 367 Pasadena Ave., Pasadena, California 91105</p> <p>"Arithmetic Games and Activities"</p> <p>"Building Arithmetic Skills with Games", #326</p> <p>"Pay the Cashier", #2405</p> <p>"Memory Arithmetic Game", #7005</p>

**13. GENERAL OBJECTIVE:**

THE PUPIL WILL DEMONSTRATE HIS ABILITY TO RECOGNIZE AND INTERPRET SIMPLE SAFETY PRECAUTIONS AND SIGNS.

**BEHAVIORAL OBJECTIVE:** The pupil is given three crayons, red, yellow and green and two outline drawings of a traffic signal containing three lights. One of the outlines has the outline light painted corresponding to the color of a real traffic signal. The pupil will demonstrate the use of the traffic signal by coloring the other outline of the lights red, yellow or green, corresponding to the printed words, "stop," "caution," "go."
